IMPORTANT INFORMATION AND CLIENT CONSENT: Please read and sign at the end stating you have fully read and understand the information below.

AVAILABLE SERVICES: Lyme Disease Counseling, LLC offers a wide array of counseling services, including individual, family, group and couples counseling. Effective psychotherapy is founded on mutual understanding and good rapport between client and therapist. It is our intent to convey the policies and procedures used in our practice, and we will be pleased to discuss any questions or concerns you may have.

RISKS AND BENEFITS: Counseling and psychotherapy are beneficial, but as with any treatment, there are inherent risks. During counseling, you will have discussions about personal issues which may bring to the surface uncomfortable emotions such as anger, guilt, and sadness. The benefits of counseling can far outweigh any discomfort encountered during the process, however. Some of the possible benefits are improved personal relationships, reduced feelings of emotional distress, and specific problem solving. We cannot guarantee these benefits, of course. It is our desire, however, to work with you to attain your personal goals for counseling and/or psychotherapy.

COUNSELING: The goal of Lyme Disease Counseling, LLC is to provide the most effective therapeutic experience available to you. If at any time you feel that you and your current Therapist are not a good fit, please discuss this matter with your Therapist to determine if transferring to a more suitable Therapist is right for you. If you and your Therapist decide that other services would be more appropriate, we will assist you in finding a provider to meet your needs.

CONFIDENTIALITY: Lyme Disease Counseling, LLC follow all ethical standards prescribed by state and federal law. We are required by practice guidelines and standards of care to keep records of your counseling. These records are confidential with the exceptions noted below and in the Notice of Privacy Practices provided to you.

Discussions between a Therapist and a client are confidential. To ensure your confidentiality, recording audio or video in your session without the written consent of your therapist is prohibited. No information will be released without the client's written consent unless mandated by law. Possible exceptions to confidentiality include but are not limited to the following situations: child abuse; abuse of the elderly or disabled; abuse of patients in mental health facilities; sexual exploitation; AIDS/HIV infection and possible transmission; criminal prosecutions; child custody cases; suits in which the mental health of a party is in issue; situations where the Therapist has a duty to disclose, or where, in the Therapist's judgment, it is necessary to warn or disclose; fee disputes between the Therapist and the client; a negligence suit brought by the client against the Therapist; or the filing of a complaint with the licensing or certifying board. If you have any questions regarding confidentiality, you should bring them to the attention of the Therapist when you and the Therapist discuss this

matter further. By signing this Information and Consent Form, you are giving consent to the undersigned Therapist to share confidential information with all persons mandated by law and with the agency that referred you and the insurance carrier responsible for providing your mental health care services and payment for those services, and you are also releasing and holding harmless the undersigned Therapist from any departure from your right of confidentiality that may result.
